1. [] LIAISON Talked with Marshall Peterson, Office of Technology Assessment, regarding his request for a briefing on international shortages of industrial metals. I informed Peterson that we were willing to have our analysts in the field discuss this with him, but that the question of his clearances first had to be determined. I suggested that he work through the OTA security officer who could then inform us of the status of his clearances.

2. [] LIAISON After conversations with [] OER, I called Jim Holt, OTA, to see if he would be willing to discuss his soon-to-be-published report on national stockpile policy. He said he would make a draft of the report available to [] and would discuss any questions [] had with him. However, [] subsequently decided to wait for the publication of the final report expected in late September.

3. [] LIAISON Met with Ben Marshall, Security Director, Senate Select Committee on Intelligence. We discussed the status of a physical security update the Agency had performed for the Committee about the first of August. Marshall had called earlier in the day to ask if he could receive a final report of the survey. We also discussed the proposed compartmented clearance for Anne Karalekas and the individual compartmented clearances proposed for George Pickett. Marshall said that Bill Miller, Staff Director, should also have these clearances and Miller had subsequently agreed. Finally, I raised the issue of the clearances for Ward & Paul Reporting Company employees [] I have asked [] Office of Security, to call Marshall directly on this question.

ADDENDUM TO JOURNAL
OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 1 September 1976

25X1

1. [] LIAISON Called the Librarian at the Office of Technology Assessment to inquire about an OTA study which was to be sent to me the middle of August. The Librarian stated the report had been delayed and now was not expected to be issued until the end of September. [] OER, has been advised.

2. [] LIAISON Discussed with Rick Inderfurth and Anne Karalekas, both on the staff of the Senate Select Committee on Intelligence, the progress being made by the Subcommittee on Intelligence Collection, Production, and Quality in their study on intelligence production. Inderfurth apparently will be working primarily with the Budget Subcommittee rather than the Production Subcommittee.
